

# TelPay for Business

**A**dagio now has international electronic payment power! Pay any bill or anyone — in any major foreign currency!

Eliminate paper cheques while maintaining solid checks and balances.

- Using TelPay for Business electronic payments software with Adagio Payables means you can make 100% of your domestic and international payments electronically—with a few clicks of your mouse.
- e-Paying with TelPay means saving time on bank reconciliation and money on postage, envelopes, wire transfers, and never having to write a paper cheque again!

Two systems that pay well together.

- Seamless integration lets you choose to export payment details from Adagio Payables to TelPay for Business software, or from TelPay to Adagio. You choose whatever works best for you.

Consumer convenience, now available to businesses.

- Individuals have been e-paying for years. Now you can have that same level of convenience for your business payments too!
