

# Adagio Payments

Integrated Payment Processing for Every Business

## Integrated and Flexible.

Work seamlessly within Adagio to avoid manual entry and reduce error with an integrated payment processing solution.

- Tokenized credit card data simplifies PCI Compliance
- Daily, automatic batch reporting
- Level 3 Processing
- Multi-currency capable
- ClickToPay integrated invoice portal
- ACH and ClickToPay Direct
- No installation, maintenance, or setup fees
- 24/7 live support

## Faster Funding. Fewer Fees.

Credit card and payment processing are just a small part of the APS Payments solutions-driven model. We leverage insider knowledge to secure the best rates and minimize chargebacks for our partners and merchants. If you do not understand your bill, we will educate you on how you are currently priced.

100% PCI/DSS  
Compliant

Exclusive Adagio  
Payments Provider

Tokenized Credit  
Card Data

Partner-centric  
Approach

APS Payments works diligently to get you the lowest credit card processing rates, reduce your risk, and provide the best solutions for your business. Batch processing, seamless integrations, and automation tools such as recurring billing increase your business' efficiency and improve cash flow. From multiple payment methods to multiple currencies, we provide trustworthy service for every business and every payment. What's more, we do this all at a negative cost to your company. When it comes to payments, don't settle for less than APS!

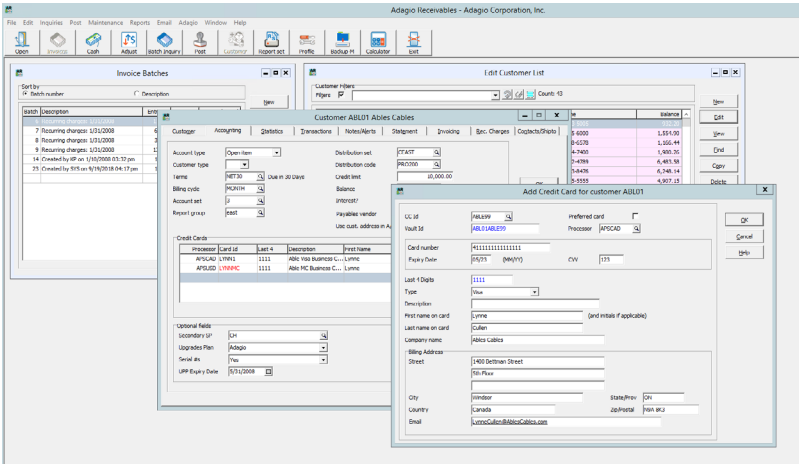

Get your **free merchant statement audit** with no commitment and no hidden fees.

You need a processor that can guide you to what works best for you. From our online webinars to our custom demos, with APS Payments you will always know that we are working to provide the right solution for your business.

## Adagio Accounting

Adagio Accounting software is designed for small to mid-sized companies that have an accounting office. This means the accounting function is managed by trained accountants rather than by the owner-operator. It is designed to support the processes and audit controls of growing businesses. Adagio Accounting integrates with APS Payments to allow credit card processing functionality right within the Adagio Accounting system. Quickly and seamlessly process your credit card transactions within AR, Invoicing, and Order Entry.

## APSPAYS Vault

The APSPAYS Vault is fully integrated within Adagio, allowing you to store customer payment credentials for future use without ever storing your customers credit card data locally on your own servers. The APSPAYS Vault is a 100% PCI-DSS compliant gateway with many reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security and protect yourself from the risk of data breach and heavy fines.

Save  
up to 43%

## Level 3 Rates

Level 3 processing allows you to receive discounted rates on Visa and MasterCard B2B transactions. The average small to mid-sized business saves \$18,000 per year by providing the comprehensive level 3 data requirements. APS Payments Adagio integration will automatically send the required data for you, to ensure quick payments at lower costs.

Every Business. Every Payment.
