

Telpay for Business™

The most advanced EFT software for Adagio

Telpay for Business is the all-in-one electronic payment solution designed integrate with Adagio to streamline payment processing, while maintaining or enhancing existing controls.

Key Features

Pay Anyone, Anywhere: All suppliers, government remittances and employee direct deposit in Canada and to international accounts.

Supplier Bank Account Collection: If a supplier's bank account information is not in Telpay's database, Telpay will contact the supplier to get their information so that an electronic payment can be made.

Remote Email Authorization: Signing officers can approve a payroll or a payment batch from anywhere they receive email, while traveling or on holidays.

Strong Controls: Secure login, encrypted file transmission, and single or dual payment approval to match your cheque approval process.

Reporting: Telpay provides detailed reports about electronic payments for both the payer and supplier. Direct deposit payments include automatic payment notification by email, fax, or efile.

Audit Trail: Full audit trail, built-in 'Guide to Auditors'.

Pay Next Business Day: Take advantage of supplier early payment discounts by making next business day bill payments when you fund payments via online banking.

Expertise: Telpay Inc. developed electronic payment technology in 1985 and has been the industry leader ever since. You will have access to the industry's most experienced electronic payments experts and to the latest industry news.
